

Anti-human prion protein mab 6G3

Catalogue number	Package size
0102001501	100 µg
0102001503	1 mg

For research use only.

Product:	monoclonal antibody
Clone:	6G3
Host:	mouse
Isotype:	IgG1 _k
Immunogen:	recombinant human prion protein
Specificity:	bovine prion protein aa HFGSDYEDRY
Purification:	purified by affinity chromatography
Purity:	> 95% by SDS-PAGE
Solution:	PBS pH 7.4 without additives
Storage:	at -20 °C (repeated thawing and freezing should be avoided)
Applications:	ELISA, Western Blot (see figure below)
Dilution:	1-10 ng/ml in ELISA, 2 µg/ml in Western Blot
Reactivity:	prion protein from human, cattle, sheep and deer

Figure

Recombinant prion proteins from human (1), cattle (2), sheep (3) and deer (4) were separated by SDS-PAGE under reducing conditions and blotted on nitrocellulose membrane.

NC membrane was incubated by 2 µg/ml of mab 6G3. Bound antibody was detected using horseradish peroxidase conjugated goat anti-mouse IgG/M antibody (ZYMED) and H₂O₂/TMB substrate solution.

Mab 6G3 reacted specifically with all prion proteins.
